

The Centers for Disease Control and Prevention's (CDC) Laboratory Outreach Communication System (LOCS) is providing this link to *Morbidity and Mortality Weekly Report (MMWR)*, entitled "[Notice to Readers: Addition of Novel Influenza A Virus Infections to the National Notifiable Diseases Surveillance System, 2007](#) Vol 56, No MM13;307."

Additional information concerning the National Notifiable Disease Surveillance System is available at <http://www.cdc.gov/epo/dphsi/nndsshis.htm> and <http://www.cdc.gov/epo/dphsi/phs/infdis.htm>. Due to state-to-state variability in notification requirements, private and commercial laboratories should obtain information about notifiable diseases for each state by contacting the appropriate state and territorial public health laboratory at [http://www.aphl.org/about\\_aphl/member\\_laboratory\\_listing.cfm](http://www.aphl.org/about_aphl/member_laboratory_listing.cfm) or through the state epidemiologist ([http://www.cste.org/members/state\\_and\\_territorial\\_epi.asp](http://www.cste.org/members/state_and_territorial_epi.asp))

To view previous LOCS transmissions, please visit <http://www.phppo.cdc.gov/dls/locs/>.

Please submit any comments and questions concerning this communication **from your organization** to [jastles@cdc.gov](mailto:jastles@cdc.gov). Thank you in advance for your assistance in communicating this information to the broadest possible clinical laboratory community.

Regards,

D. Joe Boone, Ph.D.
